	PICTURE	WORD	VOWEL DIGRAPH
1		doe	
2		soap	
3		road	
4		toe	
5		toast	

The Sun

There are many stars in the sky. Did you know that the sun is a star? It is our closest star! The sun is very big. It is made of gases. The gases burn. They give off light and heat.

The Earth moves around the sun. It goes in a big circle. The Earth also spins as it moves. We do not feel it spin. But we can see the sun rise in the morning. We can see the sun set at night.

What would happen if we did not have the sun? The Earth would be cold and dark. No plants could live. There would be no animals. People could not live on the Earth. The sun helps living things on Earth. It's a good thing we have the sun!

Main Idea and Supporting Details

Directions: Refer to the passage “The Sun” to complete the chart.
