FLUENCY LESSON 10

The Tiny Bird

One morning, Charlene and her brother Andrew were playing at the park. They were digging in the sandbox together. Suddenly, they heard a rustling noise coming from a bush nearby. Charlene and Andrew decided to go take a look.

Charlene looked at the bush and noticed a small hole at the top. It looked like something had fallen through it. She took a closer look and saw a tiny bird caught in the branches. She carefully picked it up and put it on the ground. They waited for the bird to fly away, but it didn't move. Andrew thought that was unusual.

"I think its wing might be broken," Andrew said.

"How awful. Let's take it to Uncle David. He always knows what to do," Charlene said. Then she carefully put the bird in her backpack.

Their Uncle David worked in the animal hospital right down the street. When they arrived, Uncle David looked at the bird's wing. It was definitely broken. He wrapped the bird's wing. He kept the bird at the hospital until its wing healed.

A few weeks later, Charlene and Andrew went back to the animal hospital. The tiny bird's wing had finally healed. Uncle David carried it outside. As predicted, it quickly flew away.
